Construction & Paint Chemicals

A growing manufacturer of performance chemicals
Emulsions for Chipboard and MDF industry
Intermediates for construction chemicals
Specialty paint chemicals

Printing Chemicals

An innovative manufacturer of printing chemicals
Blanket & Roller washes
Fountain solutions
Plate cleaners
Specialty products

Specialty Solvents & Waxes

Leading manufacturer of Solvents & Waxes
Broad range of aliphatic solvents
MTT (low aromatic white spirit)
Degreasers & cleaning products
Industrial & specialty waxes

Aerosols & Home Care

Advanced packaged solutions for home care
Full range of aerosol products
Hard surface cleaners
Toilet & bathroom cleaners
Hand & body washes

Mijokum is a growing manufacturer of specialty and performance chemicals based in the port city of Karachi. We combine chemistry, engineering and creativity to deliver outstanding chemical solutions that add value to your business. Our products save crops, improve health and enhance living standards for people.

For the last 25 years we have innovated & extended our product range which includes **Specialty Solvents & Waxes**, **Construction & Paint Chemicals**, **Aerosols & Home Care** and **Printing Chemicals**. Our Specialty Chemicals are used in a broad range of industries like textiles, agro-chemicals, construction, printing and packaging.

Research and Development

Our R&D team consists of exemplary Chemists and Engineers who are innovating new products and improving existing products. Our products are tested by accredited laboratories and leading research institutions. Through continuous improvement of our product range we aim to set the quality standard in every product category that we compete in.

Mijokum has a rich heritage in research, development and engineering excellence.

- 1990** - Pioneered the local manufacture of Aliphatic Hydrocarbon Solvents
- 2005** - Commissioned a 2,000 TPA plant for manufacturing paraffin wax
- 2010** - Doubled solvents manufacturing capacity to 10,000 TPA
- 2012** - Pioneered the production of Cathode grade Copper from indigenous ores
- 2013** - Initiated production of Baygon aerosol insecticides for S.C. Johnson & Son
- 2014** - Initiated production of Construction and Paint Chemicals
- 2015** - Initiated production of premium quality printing chemicals. *Products are FOGRA compliant and can be used on offset lithographic presses manufactured by Mitsubishi, Komori, Heidelberg, Baldwin, KBA and Man Roland*
- 2018** - Initiated production of premium quality Home Care products and launched the Pro Care brand.

Our people

Each member of our team is a part of the Mijokum family. We have a supportive leadership that believes in meritocracy and promotes a high performance work culture. We attract the brightest people and develop them through challenging assignments, training opportunities and career coaching. Our consultant Extra Mile plays a big role in making sure that Mijokum achieves excellence in all people related areas. We can say with confidence that Mijokum is a great place to work and grow.

Health and Safety

Mijokum is working with certified partners to achieve the highest industry standards of social responsibility in our operations. Creating an incident free environment for our customers, our neighbours and our associates is a top priority for us. We are committed to being a leader in Health and Safety and are incorporating responsible QEHS management principles in our management system.
